Specialists in exceptional off-plan sales, LHI Global's unique international approach is redefining the industry

They say you shouldn't mix business and marriage, but the dynamic husband and wife duo, Benjamin and Rayna Hunter, have defied convention by building LHI Global into a market-leading international property consultancy specialising in prime off-plan sales.

The award-winning firm, with offices in London and Dubai, has built its reputation in a short space of time through the delivery of exceptional results, such as record-breaking development sell-outs, sourcing projects with excellent growth potential and leading the launch of iconic skyscrapers.

With the advantage of more than 20 years of experience in the property industry, Benjamin established LHI Global to connect developers with the largest distribution channels in the world. 'Our model is unique,' he says. 'The original goal was to build and shape the largest network of Investment Property Agents, Independent Financial Advisers and Family Offices throughout the world and that is exactly what we did.'

This, however, was only the first challenge, and it was achieved in no small part thanks to Rayna, who brought her own unique style to the role of CEO. 'I may have entered the property world late, but I had a sound background knowledge of how the industry and property market worked, and I bring other skills and a fresh perspective,' she says.

Well-versed in managing a mixture of clients and projects from some of the biggest names in the industry, LHI Global's rapid success is underpinned by a selective approach. 'If a project ticks the right boxes, we have the tools to ensure it will sell out fast.'

For investors, LHI Global offers exclusivity, delivering investment opportunities in prime located developments otherwise unavailable to the open market. 'We pride ourselves on providing our developer partners with a discreet, off-market, pre-build, clearly defined exit strategy for new developments, saving them considerable time and money while eliminating exposure to market fluctuations. Time and again this has proven invaluable in

allowing them to focus on what they do best.'

Delivering prime projects in major cities in the UK, LHI Global opened a dedicated office in the UAE in 2022 to source and secure exceptional global property investment opportunities around the world.

Recent successes for the prime property firm's Middle Eastern arm, named Dubai's Best Property Consultancy at the International Property Awards, include the exclusive global launch of 'The Sail in Malaysia' – a spectacular flagship development that will be one of the world's finest with a GDV in excess of £1.2 billion.

LHI Global's journey so far is a testament to the power of innovation, dedication and a commitment to excellence. As the property consultancy's presence continues to expand across the globe, its unique approach is redefining the industry – and proving that, when operating in perfect harmony, the mixture of marriage and business can be a powerful one.
